

PanGenomic Health Provides Update for NARA Product and Conversational AI

Vancouver, British Columbia, Canada, June 6, 2023 – PanGenomic Health Inc. ("PanGenomic Health" or the "Company") (CSE: NARA) (AQSE: NARA), is pleased to provide an update on its NARA product and announce that it is planning to launch conversational AI for the NARA app and web platform ("Conversational AI").

The Company released a new version of its NARA app this quarter with an updated plant library, plant rating system, expanded video content and new personalization tools for women's health. The product changes were designed to allow users to access expanded information about natural solutions and scientifically backed tools in their pursuit of mental and physical well-being. With the future integration of Conversational AI, users will be able to interact with the NARA app and web platform in a more intuitive and effortless manner through natural language dialogue.

"The introduction of Conversational AI will be a significant stride towards enhancing the user experience", stated Maryam Marissen, CEO of PanGenomic Health. "We believe that Conversational AI will be a vital component in allowing a user to take their wellness journey to new heights and further personalize their health experience."

The NARA app and web platform leverage personalized data to offer tailored insights and evidence-based solutions, and equip individuals with comprehensive guidance backed by the latest scientific research in natural solutions. Conversational AI will engage with the user to explore relevant information from various sources, such as DNA profiles, existing health regimens, self-reported feedback, and long-term wellness goals.

Ms. Marissen further commented, "PanGenomic Health remains committed to providing our users with an informative, engaging and interactive experience. The addition of Conversational AI marks an important milestone in our journey to build future-forward products."

The Company is planning to launch Conversational AI on the web based NARA platform by Q3, followed by a roll out on the NARA app by Q4 of this year.
